

MAKTOUB

ORGANIC FERTILIZERS

مكتوب

THE LEADER IN ORGANIC FERTILIZERS

ADVANTAGES

MAKTOUB organic fertilizers and ecological fertilizers and soil conditioners are made from carefully selected highest-quality raw materials. They contain both organic nutrients (primary and secondary nutrients and trace elements) and organic matter.

A combined supply of organic nutrients and organic matter guarantees an increase in yields, a better quality of crops and maintenance of soil fertility.

TECHNICAL ADVANTAGES

ORGANIC NUTRIENTS

- Organic nutrients
- Guaranteed amount of organic primary and secondary nutrients
- Slow release of nitrogen
- Predictable N-release
- Rich in trace elements such as Fe, Mn, B, Mo, Zn, Cu

ORGANIC MATTER

- Guaranteed amount of stable organic matter
- Preservation of humus content of the soil
- Improves soil structure
- Stimulates biological soil activity
- Improves root development
- Increases nutrient absorption
- Stimulates plant enzymes
- Promotes colloid forming (prevention of soil erosion)
- Increases water retaining capacity of the soil (sponge effect)
- Improves CEC (Cation Exchange Capacity)
- Promotes chelate-forming with micro-nutrients

PRACTICAL ADVANTAGES

- Safe and clean fertilizers
- High, constant and verifiable quality
- Free of pathogens and weed seeds
- Guaranteed amount of nutrients
- High percentage of stable organic matter
- Dry matter content of 90 %
- Stable during storage
- Good solubility
- Easy spreading
- Low application rate
- Available throughout the year
